

Harris is truly a world class company producing equipment for-

- ▶ Hospitality
- ▶ Scientific
- ▶ Specialty
- ▶ Medical
- ▶ Industrial
- ▶ Food

Knowledge gained from each Industry sector crosses over and enhances our ability to produce unique features and benefits that help the user reduce costs.

Harris Gas Equipment Australia is part of the Harris worldwide team, reputed to be the oldest gas equipment manufacturer, with production starting in 1905.

Today, you'll find the Harris name on gas equipment (pressure vessels) that sets the standards for design, performance, safety and quality whether cutting and welding or accurately delivering oxygen to a patient in intensive care. Harris is truly a world-class company. Its products are now sold in over 80 countries worldwide and manufactured in factories in the United States, Italy and Ireland.

All our collective energy goes into producing a quality product. Compare the Harris product and you will know immediately that Harris is the real value leader in gas equipment. ***"Simply a better buy!"***

The story goes further. The benefits for you are supported by our distributor network, our distributors talk product, ***"know how.....how to"***. To provide productivity gains and lower costs for users of gas equipment. Don't neglect this area of your operation. The importance in being efficient can be the difference between making/loosing money on a job. Harris distributors are solving problems and helping end-users every day, it's what we do. Our collective "know how" can be a valuable ally for your business.

A Harris distributor is nearby, stocks the product you need and has the expertise to advise and arrange an on-site demonstration.

| 1x 801 Oxy Reg | 1x B192S Mixer |
| 1x 196 Handle | 1x D50C Tip Tube |
| 1x 883AL | 1x 13905N Brazing Tip |
| 1x 883AR Flashguards | 1x Instruction Manual & Safety Guidelines |
| 1x 362 Cutting Attachment | |

19368016 Contractors Propane Kit

637380106

Classic Acetylene Kit

This kit suits most applications. The quality of all items ensures long life and extra economy. An instructional video helps users “brush up” on their techniques or helps users learn the basics.

Features Include Wt. 7.2kg

- ▶ Solid construction
- ▶ Uses lower acetylene pressure
- ▶ Ease on cutting valve
- ▶ Safe sealing of attachments
- ▶ Two piece, pull apart, cutting tip
- ▶ 8mm allows for heating/gouging
- ▶ Regs comply to AS4267
- ▶ Torches comply to ISO

Kit content

- 1x 801 Acetylene Reg
- 1x 801 Oxygen Reg
- 1x 632 Handle
- 1x 883AR Flashguard
- 1x 883AL Flashguard
- 1x 732 Cutting Attachment
- 1x IAC Cutting Tip
- 1x 23A905 Welding Tip
- 1x E43 Mixer
- 1x 8mmx5mm Twin Hose
- 1x Instructional Video**

Acetylene Plumbers Kit

Ideal for trades such as Plumbers, Gas Fitters and the like. The flexible tip adds a “new” dimension for the operator. The thumb controlled valves help the operator adjust the flame without interrupting the feeding of filler rod.

Kit content Wt. 0.7kg

- 1 x 196 Precision Handle
- 1 x 883AL Flashguards
- 1 x 883AR Flashguards
- 1 x H192E Mixer
- 1 x 50903 Welding/Brazing Tip
- 1 x 50905 Welding/Brazing Tip
- 1 x 00908 Flexible Welding/Brazing Tip

634980107

Classic Propane Kit

The best propane kit on the market, with features that are purposely designed to make oxy/propane easier for the end user. Many applications suit the use of oxy/propane, and this kit offers the novice/experienced operator a real user-friendly tool.

Features Include- Wt. 7.2kg

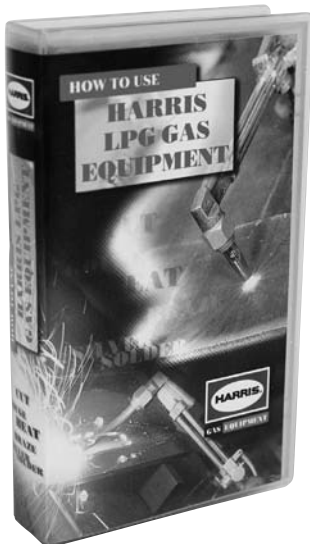

- ▶ Low pressure mixing
- ▶ Hot tip technology
- ▶ Ease on cutting value
- ▶ Safe sealing of 'O' Rings
- ▶ High quality in all items
- ▶ Solid/tough construction
- ▶ Regs comply to AS4267
- ▶ Tournches comply to ISO

Kit content

- 1x 801 Propane Reg
- 1x 801 Oxygen Reg
- 1x 492F Cutting Attachment
- 1x 632 Handle
- 1x 883 AR Flashguard
- 1x 883AL Flashguard
- 1x INX Cutting Tip
- 1x B435 Mixer
- 1x 8593 Tip Tube
- 1x 5N Brazing Tip
- 1x 8mmx5mm Twin Hose
- 1x Instructional Video

Oxy/Lpg Video

H003AV Harris perfected a better system for Oxy/Lpg use, overcoming many of the problems associated with this type of gas. This instructional video will explain the Harris mixing systems and reassures the user that have previously tried this gas combination.

Oxy/Acetylene Video

H019 This is a great training tool for business, operators and individuals. It highlights and explains some of the key areas for safe use of the gas and equipment.
