

# Nothing but **HEAVY DUTY.**<sup>™</sup>

COMPLETE PRODUCT CATALOGUE

Dear Milwaukee<sup>®</sup> Tool customers,

Welcome to our latest catalogue, featuring our full range of cutting-edge heavy duty power tools, hand tools and accessories.

Since the company's inception in 1924, Milwaukee<sup>®</sup> Tool has led the industry in performance and durability. Our approach hasn't wavered in those 93 years – we've remained dedicated to understanding what you need on the job and delivering the innovative business solutions to help you get the job done efficiently and effectively.

The products in these pages are the result of many hours on Australian job sites, talking to tradespeople and going over the small details that can make the biggest difference. We do this because we know that sweating the small stuff produces equipment that truly helps your business.

Whether it's our class-leading LITHIUM-ION battery technology in the M12<sup>™</sup> and M18<sup>™</sup> systems, our time-saving accessories, or ever-reliable hand tools, this latest suite of products continues the proud history of disruptive innovation that has made Milwaukee<sup>®</sup> a global leader in the tool industry. Every item is the result of careful thought, extensive life and reliability testing, and a host of field tests, ensuring it can handle anything your workday throws at you.

If you have any questions about the range, or for purchasing enquiries, please head to your nearest Milwaukee® authorised distributor. Buying through a Milwaukee authorised distributor ensures your tools are covered by our manufacturer's warranty and what you are buying is the genuine item, complete with our comprehensive back-up service. We believe that combining this level of after-market care with our range of heavy duty products is what makes Milwaukee® tools the number one tool brand for professional users in the Australian market.

Thank you for taking the time to go through our product offering and we wish you and your business every success.

Michael Brendle Group Managing Director

# BY THE TRADE

When it comes to power tools, there isn't an expert out there who knows what works better than you. Milwaukee<sup>®</sup> has a proven track record of getting out in the field to understand the demands of a constantly changing workplace. By working with our users, we're designing tools that make you more productive and help you be the best at what you do.

#### **GAME-CHANGING SOLUTIONS**

At Milwaukee<sup>®</sup>, the phrase "good enough" doesn't exist in our vocabulary. Our goal is to solve problems in ways that have never been done before. The result: tools that offer unmatched levels of performance, productivity and life.

#### **BUILT ON THE BEST FOUNDATION**

#### **REDLITHIUM-ION<sup>™</sup> BATTERIES**

It lasts longer, thinks faster, and works harder than all other professional LITHIUM-ION batteries. Built to withstand even the harshest environments, REDLITHIUM-ION<sup>™</sup> batteries deliver more work over the life of the battery, no matter what the job.

#### MILWAUKEE® HIGH PERFORMANCE MOTORS

Highly advanced motor technology boosts efficiency, generating more power from a compact power plant. This means the ultimate performance, durability and runtime comes in a smaller, lighter package.

#### REDLINK<sup>™</sup> INTELLIGENCE

An advanced combination of hardware and software, REDLINK<sup>™</sup> Intelligence enables full-circle communication between our batteries and tools, allowing for unmatched levels of performance, protection and productivity.

# BUILDING GIVING BACK

# OUR VALUES

Our values are our beliefs, principles and standards that do not change over time. Values are the resources we draw on when asked to make decisions. They form the groundwork for our ethical behavior. All that we do at Milwaukee® must be consistent with the values to which we subscribe.

**MEET THE MILWAUKEE<sup>®</sup> TEAM** 

# ENCOURAGING INNOVATIVE SPIRIT

EXCEEDING **CUSTOMER EXPECTATIONS** 

## **MILWAUKEE® IS COMMITTED TO** THE EXPERIENCE **OF THE USER**

For this reason, we have chosen to only partner with experts in the sale and distribution of industrial products, because only specialist retailers can offer the kind of experience and service that professional users deserve.

With this specialist distribution network we can service our loyal users through over 2000 outlets conveniently located right across all of Australia and New Zealand.

In line with our goal of creating the best experience for our user with Milwaukee<sup>®</sup>, we encourage our distributors to not only keep the right range of products in stock at all times, but to know and understand how they can be used to improve the life of our users.

Whether you are a plumber, an electrician or any other kind of a professional user, we recognise that your needs are quite different to that of the "DIY" customer. That is why you will not find Milwaukee<sup>®</sup> tools distributed through the large hardware retailers (let's face it, their focus is really on the DIY customer).

We invite you to let us know about your next instore Milwaukee experience, so we can help improve our service to you! Drop us a line on one of our social platforms.

HISTORY

With the introduction of M12 FUEL<sup>™</sup> Milwaukee<sup>®</sup> took the world's largest subcompact range of cordless power tools to new levels of unprecedented power, runtime and durability to compete against larger, higher voltage tools.

M18 FORCE LOGIC<sup>™</sup>

M18 FUEL<sup>™</sup> 125mm Angle Grinder.

M12<sup>™</sup> and M18<sup>™</sup> Milwaukee<sup>®</sup> lighting range

....

Milwaukee<sup>®</sup> launches ONE-KEY<sup>™</sup>, the first digital platform for tools and equipment. Providing a new level of control and access to information with the world's smartest tools.

In 2011 REDLITHIUM-ION<sup>™</sup> set a new battery technology standard; reliable, high power cells, a ground up durable battery construction and sophisticated electronics to deliver second to none productivity. Launched in 2012 the compact but extreme performance Milwaukee<sup>®</sup> Fuel<sup>™</sup> combines uber efficient brushless motor technology, with super smart electronics and LITHIUM-ION batteries for more unmatched durability in an ever shrinking, lighter weight tool.

# **JIHSTE** SOLUTIONS

WHAT IF THERE IS A WAY TO WORK FASTER AND SMARTER THAN YOUR COMPETITION - BUT YOU JUST HADN'T HEARD ABOUT IT YET?

Milwaukee<sup>®</sup> has established a culture devoted to innovation and pushing the boundaries of technologies available to the power tool industry. We are the unmistakable leader in cordless LITHIUM-ION technology within the power tool market. Every year, Milwaukee® develops new and truly ground breaking tools and accessories with a single aim in mind: to improve the experience of our end users. For your job site to reach its full operational potential you need the best tools available; the tools that will run longer, provide more power and operate with greater ease and efficiency.

Many job sites we investigate fall victim to the same mistake - saving costs by using cheaper tools and accessories. This may save you money in the short term, but the inevitable performance issues that ensue will reduce your efficiency and ultimately cost you money. The best available is, and always will be Milwaukee<sup>®</sup>.

# RESPONSIBILITY

### **IMAGINE IF YOU COULD WORK** WITH A PARTNER THAT SHARED **YOUR VALUES:**

A commitment to the well being of the user safety is at the forefront of all that we do.

Environmentally responsible - committed to a greener future.

Committed to the future of our industry -Milwaukee<sup>®</sup> is the leading supporter of TAFE in the industrial power tool industry.

Members of our industry - AMCA, Master Plumbers and NECA.

Honesty, Integrity and Reliability Since 1924

### **HOW IT WORKS...**

Our experienced team visit your job site - be it commercial, industrial, mining or oil and gas infrastructure - and conduct a thorough review into how your workers are using their tools and what applications and obstacles they face on a daily basis.

We can then provide real solutions to your power tool inventory management - both by increasing productivity with new application solutions and substantially reducing your costs by streamlining and consolidating your cordless tool platforms.

Our process for assisting a company in making the transition to using Milwaukee® is fairly straightforward and involves 3 basic steps:

- 1. We make an assessment of your current inventory as it relates to Milwaukee equivalent products.
- 2. We endeavour to understand your current and likely future work processes so that we can make a recommendation on which tools are best suited to your needs.
- 3. We submit a "no obligation" tailored solution for your consideration.

### **HOW IT BENEFITS YOU...**

By consolidating and streamlining your tool platforms we can help improve your inventory control and deliver genuine cost savings by utilising the latest technology and providing the latest innovative tools. Productivity improvements can also be made by advising on tool and accessory systems that best suit the application requirements of the individual user.

Honesty, Integrity and Reliability Since 1924

# FOCUSING ON THE NEXT GENERATION

Milwaukee<sup>®</sup> is more than just a provider of industrial power tools, hand tools and accessories. We are also a provider of innovative products that have all been developed to provide application specific solutions for the Electrical, Plumbing, Mechanical, Automotive, HVAC, MRO and Construction trades of Australia and that is why Milwaukee<sup>®</sup> is interested in working more closely with the tradespeople of tomorrow.

#### AN UNDERSTANDING RELATIONSHIP

The aim of the TAFE and vocational institute program is to educate the next generation of tradespeople through promoting the Milwaukee<sup>®</sup> culture and providing relevant training and job site solutions for apprentices. Milwaukee<sup>®</sup> promises to work closely with the industries that it operates in by providing each institution with products, information and services in a responsible way.

Milwaukee<sup>®</sup> has experienced people dedicated to training on their products. A Milwaukee<sup>®</sup> representative can visit an institution to talk to students about such topics as power tool safety, choosing the right tool for the right job and power tool maintenance and care.

#### WHY MILWAUKEE®?

#### QUALITY

Milwaukee<sup>®</sup> understand TAFE colleges and vocational institutes around Australia can provide the most demanding of environments when it comes to power tools, hand tools and accessories; we also understand that they have an obligation to make the most of (often limited) resources wisely.

#### SAFETY

With safety becoming increasingly important on the job site, it is easy to see why cordless power tools have gained popularity. Milwaukee<sup>®</sup> continues to deliver products that not only revolutionise cordless expectations but also integrate new to world technology that deliver safer solutions for tool users.

#### ACCESSORIES

Milwaukee® TAFE and vocational institutes have access to Milwaukee®'s high quality range of accessories. Milwaukee®'s accessory program includes a broad range of cutting and fastening accessories that are designed from the ground up to address the needs of users on the job site.

#### HAND TOOLS

Milwaukee<sup>®</sup> is rapidly expanding the hand tool category with a focus on delivering innovative solutions for the user. Milwaukee<sup>®</sup> not only offers professional hand tools to apprentices, but shares industry best-practice, tangible solutions and training support to vocational institutions across the nation.

# PEAK PERFORMANCE REQUIRES THE BEST SUPPORT

Milwaukee<sup>®</sup> Tool (Australia) is proud to support James McFadden and the Monte Motorsport Sprintcar team, Danny Brown and the 42 Motorsport crew, and V8 Utes Australia driver Craig Dontas and his team.

Whether it's Craig or James storming around the track, or Danny navigating the extreme conditions that the Australian Off Road Racing Series throws his way, these drivers strive for excellence every time they start their engines.

Milwaukee<sup>®</sup> shares the focus and determination that motivates all three racing teams. Our brand applies the same tenacity to developing heavy duty products that deliver superior productivity and peace of mind. That's why, when it's time to put the pedal to the metal, James, Danny and Craig can be confident our tools will handle whatever the race throws at them.

The innovative design, precision engineering and exhaustive testing that goes into every product in the Milwaukee power tool range helps these teams get the job done faster, more reliably and safer than ever before.

Off the race track, Milwaukee® is also excited to continue its relationship with Surfing Australia. As Australia's peak surf organisation, Surfing Australia promotes board riding as more than just a sport or hobby – but as a lifestyle. It's an approach that resonates strongly with Milwaukee®, and is reflected in our growing range of products that are designed to make business owners' lives – both on and off the job site – easier and more enjoyable.

Milwaukee<sup>®</sup> is eager to watch these sponsorship partners deliver plenty of thrilling moments over the course of 2017 and into 2018. We wish all competitors the best of luck.

# TO DEVELOP AND PRODUCE 'NOTHING BUT HEAVY DUTY"' POWER TOOLS IS ONLY ONE PART OF THE MILWAUKEE® PROMISE.

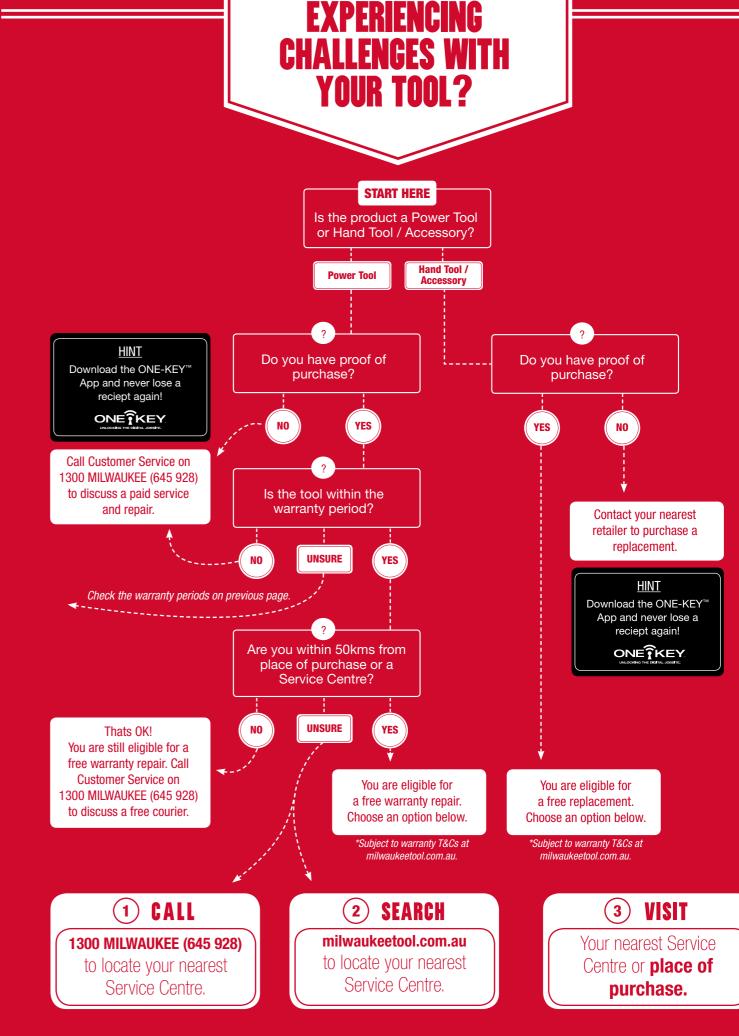

These tools need to last day in and day out. For this reason, serviceability is incorporated into every tool produced. All power tools leave the factory with a complete documentation package including instructions for use, warranty statement and safety instructions. Should a problem arise requiring assistance or support at short notice, you can rely on our service centres/agents nationally. Expertise and competence gained over many years ensures a fast and efficient professional repair service.

## **EXPERIENCE THE HEAVY DUTY DIFFERENCE.**

At Milwaukee®, heavy duty is more than just a slogan. It is a promise to offer the best to professional users. Milwaukee® engineers dont just design tools, they design tools to get the job done better, faster, safer and more reliably.

FUEL

# **BATTERY TECHNOLOGY**

Since introducing the world's first LITHIUM-ION cordless system in 2005, Milwaukee® has continued to lead the industry in LITHIUM-ION technology and patents. Milwaukee<sup>®</sup>'s focus on LITHIUM-ION continually drives us ahead of the competition to deliver the best battery systems in the industry. Our exclusive integration of chemistry, cell design and circuitry is combined for superior output in the harshest environments.

#### WATER PROTECTION BARRIER

Guides water away from the electronics and out of the battery pack.

rain. By guiding water out of the pack and applying an advanced coating over critical components, packs are better protected from corrosion. This leads to a more durable and longer lasting pack.

#### **REDLINK<sup>™</sup> ELECTRONICS**

- Full M18<sup>™</sup> system compatibility
- Protection from abuse
- Optimum tool and pack performance

Milwaukee<sup>®</sup> battery packs are constantly communicating with the tools electronics also monitor discharge and charge analytics, which maintain performance and extend the life of the pack.

#### **TEMP CONTROL FRAME**

- Extends runtime and life by minimising heat
- Operates below -18°C

higher amounts of energy than ever before, causing the battery to heat up faster. Milwaukee®'s exclusive design transfers energy more efficiently than any other battery on the market, allowing the pack to run cool under heavy duty applications.

#### SHOCK RESPONSIVE SEPARATORS

Prevents pack failure from vibration or drops

Cordless tools that create high amounts of vibration (High Torque Impact Wrench, Rotary Hammer, SAWZALL®) are abusive towards battery packs. Tools and batteries often fall from elevated surfaces, creating an isolated impact on the battery. The shock responsive on the temp control frame under these conditions.

Milwaukee Nothing but HEAVY DUT

Cordless tools are exposed to the elements on a daily basis, including

to monitor overload and temperature in abusive situations. REDLINK™

Milwaukee<sup>®</sup> continues to push the performance of cordless tools, now outperforming their corded counterparts. This means the tools require

separators create a more durable pack by taking stress off the welds

#### **RUGGED PROTECTION**

Tools and equipment take abuse on the job. The TICK<sup>™</sup> is designed specifically to survive in these conditions. The durable weatherproof design protects internal components from water and dust while UV rated plastics keep the TICK™ from getting brittle when exposed to sunlight for long periods of time.

#### **AVAILABLE PACKS**

MILWAUKEE<sup>®</sup> TICK<sup>™</sup> Tool and Equipment Tracker 4 PACK ONET-4

Includes: CR 2032 Coincell Battery

Includes: (4) CR 2032 Coincell Batteries

Tracked by ONE-KEY<sup>™</sup>, the TICK<sup>™</sup> Tool and Equipment Tracker allows you to track the location of any item in your inventory, regardless of brand or type. The TICK<sup>™</sup> was designed with the jobsite in mind and is the first tracking device built to survive the abuse your tools and equipment take every day.

tries. App Store is a service mark of Apple Inc

# **DRIVEN TO OUTPERFORM.**

M12 FUEL<sup>™</sup> and M18 FUEL<sup>™</sup> are engineered for the most demanding tradespeople in the world. Delivering unrivaled performance in a compact structure, all M12 FUEL<sup>™</sup> and M18 FUEL<sup>™</sup> products feature three Milwaukee® exclusive innovations: the POWERSTATE<sup>™</sup> Brushless Motor, REDLITHIUM-ION<sup>™</sup> Battery Pack and REDLINK PLUS<sup>™</sup> Intelligence hardware and software. These deliver unmatched power, runtime and durability.

BATTERIES

ONE-KEY

POWER TOOLS

- Powerful 12v motor, delivers more than 8,000 PSI max operating pressure.
- Supplied with 914mm x 14.4mm high pressure flex hose with spring guard and grease coupler.
- Dispenses up to 7 cartridges per charge.
- Onboard fuel gauge: helps you increase productivity and avoid interruptions.

#### TOOL ONLY INCLUDES:

1x M12GG-0 (Battery and Charger sold seperately)

#### M18<sup>™</sup> CORDLESS 2-SPEED GREASE GUN

M18GG-201BA (KIT) / M18GG-0 (TOOL ONLY)

#### FEATURES

- Precision injection through pre-set grease counter dial.
- 450g barrel cartridge capacity.
- 1.2m flexible hose offers greater access to difficult-to-reach fittings.
- Lock-on/lock-off trigger delivers added user convenience.

#### KIT INCLUDES:

1x M18GG-0, 1x M18B2, 1x M12-18FC, 1x Contractor Bag

#### TOOL ONLY INCLUDES:

1x M18GG-0 (Battery and Charger sold separately)

SPECIFICATIONS	M12GG-0	M18GG-0
Voltage	12v	18v
Operating Pressure	8,000psi	10,000psi
Flow Rate	74g/min	284g/min

### M12<sup>™</sup> WIRELESS JOBSITE SPEAKER

M12JSSP-0 (TOOL ONLY)

TOOL ONLY INCLUDES:

SPECIFICATIONS

1x M12JSSP-0 (Battery and Charger sold separately)

### FEATURES

- Stream high-definition music wirelessly with Bluetooth® from up to 30m.
- Job site durability with rugged overmold and metal speaker grill to withstand drops, water and debris.
- 2.1A USB charger for all portable electronic devices.

**M12** 

M12JSSP-0

3.5mm AUX in port for wired playback.

### FEATURES

- Stream high-definition music wirelessly with Bluetooth<sup>®</sup> from up to 30m.
- IP54 water and dust protected and impact-resistant roll cage. Compatible with the M12<sup>™</sup> and M18<sup>™</sup> batteries,

M12<sup>™</sup> - M18<sup>™</sup> WIRELESS JOBSITE SPEAKER

or power with AC adapter. 2.1A USB charger for all portable electronic devices.

### ALSO POWERED BY:

TOOL ONLY INCLUDES: 1x M12-18JSSP-0, 1x AC Power Adapter (Battery and Charger sold separately)

### SDS PLUS / SDS MAX **ROTARY HAMMERS**

### MILWAUKEE<sup>®</sup> – LEADER IN CORDLESS INNOVATION.

Continuing to deliver game-changing solutions for core users, offering a full SDS Plus and SDS Max Rotary Hammer solution.

With Milwaukee<sup>®</sup> continuing to expand the range of medium and large FUEL Rotary Hammers, users now have the means to tackle any SDS Plus/Max drilling application on the job site.

### M12 FUEL<sup>™</sup> 16мм 2-MODE SDS PLUS **ROTARY HAMMER**

M12CH-402C (KIT) / M12CH-0 (TOOL ONLY)

### FEATURES

- 2-mode operation: choose rotary hammer or rotation-only for maximum versatility.
- Electropneumatic mechanism: drills up to 16mm (5%") holes in poured concrete and masonry.
- Compact, lightweight design: allows you to work comfortably in tight spaces all day.

### M18<sup>™</sup> 16мм 2-MODE SDS PLUS **ROTARY HAMMER**

M18BH-0 (TOOL ONLY)

### FEATURES

- 2-mode operation gives end users the choice between rotary hammer or rotation-only for added versatility.
- Low vibration value of 10.3m/s<sup>2</sup>.

TOOL ONLY INCLUDES:

(Battery and Charger sold separately)

1x M18BH-0 1x Side Handle 1x Depth Rod

- Forward and reverse switch for added versatility in fastening applications.
- Integrated LED light for workspace illumination.

### M18<sup>™</sup> 22<sub>MM</sub> 3-MODE SDS PLUS **ROTARY HAMMER**

HD18H-0 (TOOL ONLY)

### FEATURES

- 3-mode operation provides rotary hammer, hammer-only and rotation-only for maximum versatility.
- Mechanical clutch protects tool when bit binds up.
- All-metal gear case provides optimum seating for gears to enhance service life.
- AVS (anti-vibration system) delivers maximum comfort by minimising vibration.

#### KIT INCLUDES:

50 -

1x M18FAP180-0, 1x 7" Backing Pad, 1x Screen Cover, 1x Bail Handle w/ 2x Bolts, 1x Side Handle, 1x 7" Wool Cutting Pad, 1x 7" Yellow Foam Polishing Pad, 1x 7" Black Foam Finishing Pad, 2x M18B5, 1x M12-18FC

### TOOL ONLY INCLUDES:

1x M18FAP180-0, 1x 7" Backing Pad, 1x Screen Cover, 1x Bail Handle w/ 2x Bolts, 1x Side Handle (Battery and Charger sold separately)

#### **200MM HIGH TORQUE POLISHER**

AP14-2200E

#### FEATURES

- Premium high-torque gear maintains speed under load.
- Variable speed selections from 490rpm–2,100rpm on a variety of applications.
- Unique 'finger grip' for comfortable working position, especially when working with the tool vertically.
- 6m long PUR cord to prevent marks on the paintwork and allows the user to work easily around the complete project.

POWER T

### TOOL ONLY INCLUDES:

1x C18HZ-0 (Battery and Charger sold separately)

### M18 FUEL<sup>™</sup> SAWZALL<sup>®</sup> RECIPROCATING SAW WITH ONE-KEY<sup>™</sup>

M18ONESX-0 (TOOL ONLY)

### FEATURES

- Easily toggle between 4 custom performance profiles that can be saved to the memory of the tool.
- $\ensuremath{\mathsf{QUIK}}\xspace{-}\ensuremath{\mathsf{LOK}}\xspace{\ensuremath{\$}}\xspace$  universal clamp accepts all reciprocating saw blades with a concealed, keyless clamp system.
- Keyless adjustable shoe allows user to easily change position of shoe to extend blade life.
- LED light illuminates dark work spaces.

### TOOL ONLY INCLUDES:

1x M18ONESX-0 (Battery and Charger sold separately)

### M18<sup>™</sup> SAWZALL<sup>®</sup> RECIPROCATING SAW

M18BSX-0 (TOOL ONLY)

### FEATURES

- Variable speed trigger.
- QUIK-LOK<sup>®</sup> universal clamp accepts all reciprocating saw blades with a concealed, keyless clamp system.
- Counterbalance mechanism to reduce vibrations 15.2 m/s<sup>2</sup> in wooden beams
- Patented gear-protecting clutch extends the life of the tool.

TOOL ONLY INCLUDES: 1x M18BSX-0 (Battery and Charger sold separately)

### M18 FUEL<sup>™</sup> SAWZALL<sup>®</sup> RECIPROCATING SAW

M18CSX-502B (KIT) / M18CSX-0 (TOOL ONLY)

### FEATURES

- Gear-protecting clutch: extends gear and motor life by absorbing high-impact forces caused by sudden blade lock-ups.
- $\ensuremath{\mathsf{QUIK}}\xspace{-}\ensuremath{\mathsf{LOK}}\xspace{\ensuremath{\mathsf{\$}}\xspace}$  universal clamp accepts all reciprocating saw blades with a concealed, keyless clamp system.
- Keyless adjustable shoe allows user to easily change position of shoe to extend blade life.
- LED light illuminates dark work spaces.

#### FEATURES

- Versatile attachments allow for small to large area clean-up.
- Clear viewing window makes it easy to see canister fill level.
- Lock-on switch reduces user fatigue during extended use.

#### SPECIFICATIONS

Voltage	12v
Air Flow Volume	934L/min
Canister Capacity	0.6L
Length	470mm
Weight (Tool only)	1.5kg

#### TOOL ONLY INCLUDES:

1x M12HV-0, 1x Crevice Tool, 1x Extension Nozzle, 1x Utility Nozzle (Battery and Charger sold separately)

# VACUUMS

FEATURES

- Easily adaptable from handheld to stationary.
- HEPA filter will collect 99.97% of airborne particles down to 0.3 microns.
- Lock-on switch reduces fatigue during sustained use.
- Clear viewing canister window gives the user ability to see debris build-up.

#### SPECIFICATIONS

Voltage	18v
Air Flow Volume	1,019 L/min
Canister Capacity	1.1L
Inlet Diameter	32mm
Length	400mm
Weight (Tool only)	1.9kg

#### TOOL ONLY INCLUDES:

1x M18CV-0, 1x 122cm Hose, 2x Extensions, 1x Crevice Tool, 1x Floor Tool (Battery and Charger sold separately)

- Onboard accessory and hose storage for quick access to accessories.
- Stackable tool box design for added portability and easier storage.
- Large capacity reduces downtime to emptying.
- Ideal for both wet and dry applications.

#### SPECIFICATIONS

Voltage	18v
Air Flow Volume	1,246L/min
Canister Capacity	7.5L
Inlet Diameter	31.5 / 41.7mm
Length	482mm
Weight (Tool only)	4.2kg

#### TOOL ONLY INCLUDES:

**M18** 

1x HD18VC-0, 1x Hose, 1x Crevice Tool, 1x Utility Nozzle (Battery and Charger sold separately)

The Milwaukee® REDSTICK<sup>™</sup> Box Levels provide industry-leading performance with optimal vial readability, frame durability and magnet strength. The all-metal BACKBONE<sup>™</sup> provides a strong and durable frame, ensuring long-life accuracy. SHARPSITE<sup>™</sup> vial technology provides optimal readability with a magnified bubble and high-visibility vial spirit. Amplified rare-earth magnets maximise holding power. The Milwaukee® REDSTICK<sup>™</sup> Box Levels are backed by a lifetime accuracy quarantee.

High-contrast

vial surround

#### FEATURES

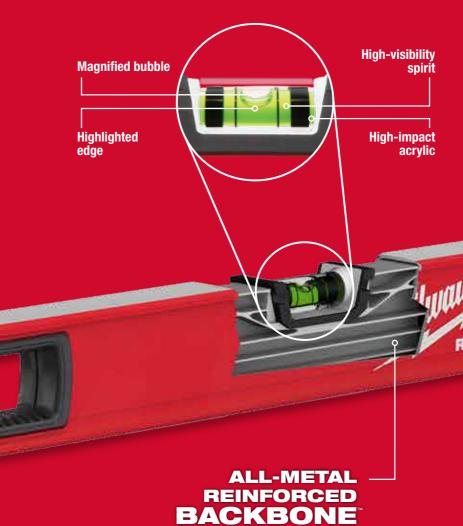

- All-metal BACKBONE<sup>™</sup>: strong and durable frame with reinforced vial retention.
- SHARPSITE<sup>™</sup> vial technology: optimal readability and impact protected.
- Guaranteed lifetime accuracy: accurate to .029° ( .0005"/in, 0.5mm/m).
- High-contrast vial system is easy to clean and optimises visibility.
- High-density, removable endcaps protect frame and provide access in tight spaces.
- Wide, durable handles for comfort and portability
- Precision-milled measuring surface guarantees accuracy in all working positions.
- Overmolded, non-slip grips stick to the wall and prevent sliding.
- Durable, all-metal hang hole for storage.
- Amplified rare-earth magnets: maximum holding power

WRITES ON DUST, WET & OILY SURFACES

INKZALL™

#### OVERVIEW

INKZALL<sup>™</sup> Jobsite Markers feature clog-resistant tips and the ability to write through dust, wet or oily surfaces. The durable marker tips are designed for writing on rough surfaces such as OSB, cinder block and concrete. Quick-drying ink reduces smearing and 72hr cap-off life increases the life of the jobsite marker.

#### OVERVIEW

Milwaukee® Precision Screwdrivers feature an all-metal core for added strength. Precision-machined tips provide secure fitment and long life. The extended reach design and longer shanks deliver improved visibility and reach. 360° rotating back caps offer greater control, driving ability and tuning. Additionally, colour-coded markings allow users to easily ID tool on the job site. Chrome-plated shanks increase tool life by reducing corrosion and providing superior rust protection.

#### FEATURES

48222610

- All-metal cores: heavy duty durability.
- Precision-machined driving tips.
- Longer shanks for improved visibility and extended reach.
- 360° rotating back caps.
- Colour-coded markings for easy identifications.
- Chrome-plated shanks increase tool life by reducing corrosion.
- Durable case with robust zipper.

#### **MULTI-BIT DRIVERS**

#### FEATURES

3½" power groove bits for power tool compatibility.

10 IN 1 SQUARE MULTI-BIT DRIVER

- Revolver-style bit storage and selection.
- Up to 10ga wire stripper and loop maker for additional job site functionality.

### JOBSITE ORGANISER 48228030

The Milwaukee<sup>®</sup> Jobsite Organiser is the most versatile of its kind and was designed for increased productivity and more space. Designed with the needs of the professional tradesman in mind, the new organiser includes bins that can be mounted on common job site materials by utilising the integrated screw slots. A no-travel seal around the perimeter of each bin prevents small items from migrating from one bin to the other. The convenient 101mm (4") x 101mm (4") size of the small bins allows them to be easily swapped out with a common electrical box. To allow users the option of carrying multiple organisers, the Milwaukee® Jobsite Organiser contains innovative side clips that not only allow the units to be attached together, but provide full access to each when they are stacked on top of one another. For added durability, the new unit features a reinforced rib for strength and an integrated weather seal gasket to resist water intrusion.

Length 355mm (14") Width 457mm (18") 127mm (5") Heiaht Weight 2.9kg

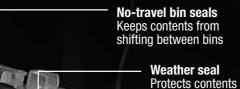

Reinforcing rib – Increases durability and allows for hand tool storage

#### JOBSITE BACKPACK

#### 48228200

#### **OVERVIEW**

The Milwaukee® Jobsite Backpack was designed with the professional tradespeople in mind and built with durable 1680D ballistic nylon material and an impact-resistant and water-resistant molded base. The jobsite backpack features a padded, breathable load-bearing harness for ultimate comfort and job site performance, as well as a laptop pocket for protected storage of laptops and tablets. A fold-down front pocket allows for easy storage of large items such as fish tapes, drills and extension cords, while exterior daisy chains allow for additional clip-on storage. This combination of extreme durability and functionality confirms Milwaukee®'s commitment to providing innovative, durable storage solutions to the end user.

#### FEATURES

- 35 pockets for organising tools.
- Impact-resistant molded base: protects contents
- and allows backpack to stand up.
- 1680D ballistic nylon material.
- Load-bearing harness: padded and breathable for all-day comfort.
- Laptop sleeve: supports laptops up to 15.6".
- Bulk pocket: quick access to bulk items such as fish tapes and power tools.
- Attachment strap: allows bag to be easily and securely attached to vertical handles.

The TORCH<sup>™</sup> metal-cutting blades are designed to provide tough, straight cuts in all metal materials. Choose The TORCH<sup>™</sup> blades when you need straight cuts in pipe or tube, or when you need greater tooth durability in hollow materials such as strut or conduit.

# THIN KERF - METAL

Thin Kerf metal-cutting blades are designed to provide fast, flexible cuts in all metal materials. Choose Thin Kerf blades when you need flexibility for flush cuts or scroll cuts, or when you want faster cuts in solid materials such as threaded rod or bar stock.

# FEATURES

- DOUBLE DUTY UPGRADE<sup>™</sup>: Improved tooth geometry allows for fast cuts and long life. Thick 1.06mm robust blade body and 25mm blade height improves stability and minimises vibration to allow for precise cuts. Bi-metal quality cutting teeth with 8% cobalt are the ultimate in performance and lifetime.
- TOUGH NECK<sup>™</sup>: Stamped indentations at the reception of The TORCH<sup>™</sup> blade add strength to the tang and lessen the likelihood of breakage during use.
- GRID IRON<sup>™</sup>: Honeycomb pattern increases blade rigidity to resist blade buckling.

# THIN KERF -MULTI-MATERIAL

Thin Kerf multi-material blades are designed to provide fast, flexibile cuts in woods, plastics and metals.

# FEATURES

- Strong and precise: extra-thick 1.6mm blade body.
- Bi-metal construction: excellent blade life and performance.
- Tooth geometry: aggressive strengthened tooth tip design and uniform gullet depth allows for more material to be removed per stroke for faster cutting.
- The sloped blade shape makes this blade ideal for plunge cutting.

**STEELHEAD**<sup>™</sup>

### FEATURES

- Up to 75x longer life vs. Milwaukee<sup>®</sup> standard bonded abrasives.
- Utilising high-grade diamond grits, the STEELHEAD<sup>™</sup> cutting blade maintains its diameter even after the most rigorous use.
- Built with a tough alloy steel core, the STEELHEAD<sup>™</sup> is less susceptible to cracking/ breaking during use, making it remarkably safer than standard bonded cut-offs.

## HOLE SAWS AND ACCESSORIES

### FEATURES

- RIPGUARD<sup>™</sup>: built with more steel behind the cutting edge for added strength. Milwaukee<sup>®</sup> offers a limited lifetime warranty against tooth breakage.
- PLUGJACK<sup>™</sup>: multiple leverage points to work cut material out of the hole saw for faster plug removal. This in turn minimises downtime between cuts for the user.
- Thermoset coating: provides 2x longer life as compared to previous generation Milwaukee® hole saws. Hole Dozer™ is coated with a low friction, thermoset paint that provides faster cutting speed in wood and more holes cut per battery charge.
- Perfect solution for cutting all types of material: steel, stainless steel and acid-resistant steel, non-ferrous metals, cast iron, aluminium, wood, MDF, gypsum plasterboard, sandwich materials, PVC.

**RETRACTABLE STARTER BIT** 

49568025

ARBOR WITH

# HOLE SAWS DIAMOND PLUS

- Greater durability and toughness delivers up to 10x longer life when cutting tile, stone and glass compared to standard bi-metal hole saws.
- A thicker, more rigid blade body resists fracturing and bending for maximum durability.
- The 1" tall blade body reduces blade twisting for straighter, more accurate cuts.

Ceramic tiles – all types hard and soft: porcelain, gres, granit, quarry, terrazzo, artificial stone, terracotta, agglomerate.

Fibreglass / GRP (glass-reinforced plastic) / perspex.

The precisely controlled size and placement of the diamond grit allow these blades to cut up to 2x faster than standard carbide grit blades.

# **BIG HAWG® HOLE CUTTER KIT - 7 PIECE**

49569075

 Specifically designed for drilling large holes in rough wood applications with the speed, longevity and large size range that HVAC, plumbing and other contractors need. - Hardened steel teeth provide a more solid surface for nail and knot impacts, extending the life of the teeth. Inset teeth lessen the outer diameter of the plug, increasing the chance the plug will fall out automatically for less cleanup and

The recessed flat boring pilot bit (included) minimises contact with the plug, creating less friction.

# **KIT INCLUDES**

1x 54mm	1x 92mm	2x Pilot Bits	1x Hex Wrench
1x 65mm	1x Arbor	1x Diamond File

1x 65mm	1x 108mm	1x Diamond File	

# FAST DRILLING OF BIG DIAMETERS

### FEATURES

- Fast drilling of big diameters.
- Suitable for drilling in natural hard and soft wood and chipboard.
- Ideal for door locks, morticing, electrical and plumbing work.
- 1/4" hex shank reception for direct insertion into the power tool or for secure chuck grip.
- Ground centre point for accurate positioning and sharp wings for improved cutting performance.

SPEED FEED BITS

### FEATURES

- Fast drilling, long life and less jamming: increasing user productivity.
- Dual cutting edges for fast and aggressive cut.
- Tapered design for reduced chip clogging, less friction and less jamming even in tough applications, resulting in less breakages.
- Feed screw with coarse thread increases self-feeding in all types of wood: soft and hard, wet and treated.
- Polished and powder-coated flute design.

SWITCHBLADE<sup>™</sup> SELF-FEED BIT

## FEATURES

- Aggressive feed screw design allows the bit to pull through the wood and without effort, resulting in fast drilling.
- SWITCHBLADE<sup>™</sup> replaceable blade system ensures your blade is always razor sharp. It increases productivity by eliminating resharpening downtime and increasing the overall life of the bit.
- Suitable for all general contractors, electricians, plumbers and HVAC engineers who are
  required to drill through holes in wood for all types of pipe, vents and wire trunking.

# FAST DRILLING

# CENTERING

# **CENTRING TIP**

Ensures immediate spot drilling with pin-point accuracy. Prevents skidding on smooth surfaces.

# TAPERED SHOULDER DESIGN

Thinner shoulder towards drill tip for less friction providing greater speed. Ideal for cordless hammers identified from its tapered shoulder geometry.

# **REINFORCED FLUTE**

High volume flute geometry for optimum dust removal. Reinforced flute design (thicker core) gives:

- Full power transfer to the tip
- Lower vibrations
- Exceptional break resistance, fewer breakages and best durability

# MADE IN GERMANY

# **BREAKER POINTS**

3 offset aggressive breaker points. These produce a "demolition" effect and create micro-cracks in the drilled material.

# **ENLARGED REBAR CHAMFERS**

Prevents side tip damage when hitting rebar. Reduces the risk of the drill bit jamming.

# MASONRY DRILL BITS

# FEATURES

- New aggressive tip geometry with 3 chip breakers demolishes concrete quicker.
- Rebar chamfers at the head of the drill bit prevent damage to the tip when hitting reinforced metal. A thicker core body ensures higher power transfer, lower vibrations and less flute breakage.

  - A tapered shoulder design minimises friction, enabling the M/2 drill bit to deliver faster drilling speed.
  - Made in Germany.

HAND TOOLS

SDS () PLUS

- Solid 1-piece carbide tip for outstanding lifetime.

- bit breakages.
- Made in Germany.

# **4-CUTTER DESIGN**

# **BREAKER POINTS**

# **REBAR GUARD**

■ Thanks to optimum 4x90° symmetry, all 4 carbide cutting edges function evenly and do not jam up when hitting rebar.

• Centring tip for straightforward spot drilling with pinpoint accuracy.

• 4 symmetric spiral shoulders ensure low, uniform flute wear.

• Thicker core body for low vibration and extra strength, minimising drill

# FEATURES

CHARGERS

õ

BATTERIES

ONE-KEY

- Embedded solid 1-piece carbide with centring tip for easy spot drilling and longer lifetime.
- 4 symmetrical 90° cutting edges guarantee perfect round holes for anchor fixing as well as reduce the risk of the drill bit jamming when hitting rebar. The high-volume flute geometry
- ensures optimum dust removal.
- 4-spiral flute design provides lowest vibration and low uniform flute wear.
- Suitable for brick, concrete, reinforced concrete and natural stone.
- Made in Germany.

# SDS PLUS CHISELS

**SDS PLUS - POINTED CHISEL** 

General purpose chisel with point, to suit a wide variety of applications.

PART NUMBER	DESCRIPTION	А	в
4932339625	SDS PLUS Pointed Chisel	-	250mm

# **SDS PLUS - FLAT CHISEL**

General purpose flat edge chisel. Ideal for a wide range of breaking and cutting applications, as well as general demolition.

SDS PLUS - HOLLOW CHISEL

Pointed Chisel

Application specific for use with channelling in concrete.

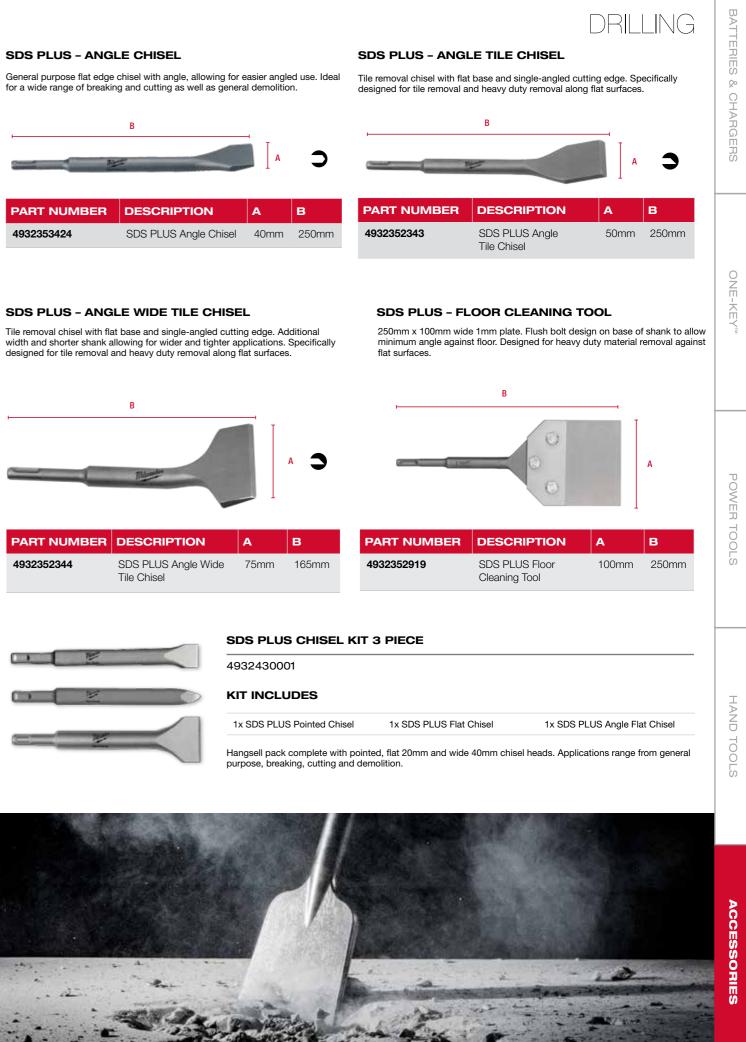

PART NUMBER	DESCRIPTION	А	в
4932339627	SDS PLUS Hollow Chisel	22mm	250mm

## SDS PLUS - FLAT WIDE CHISEL

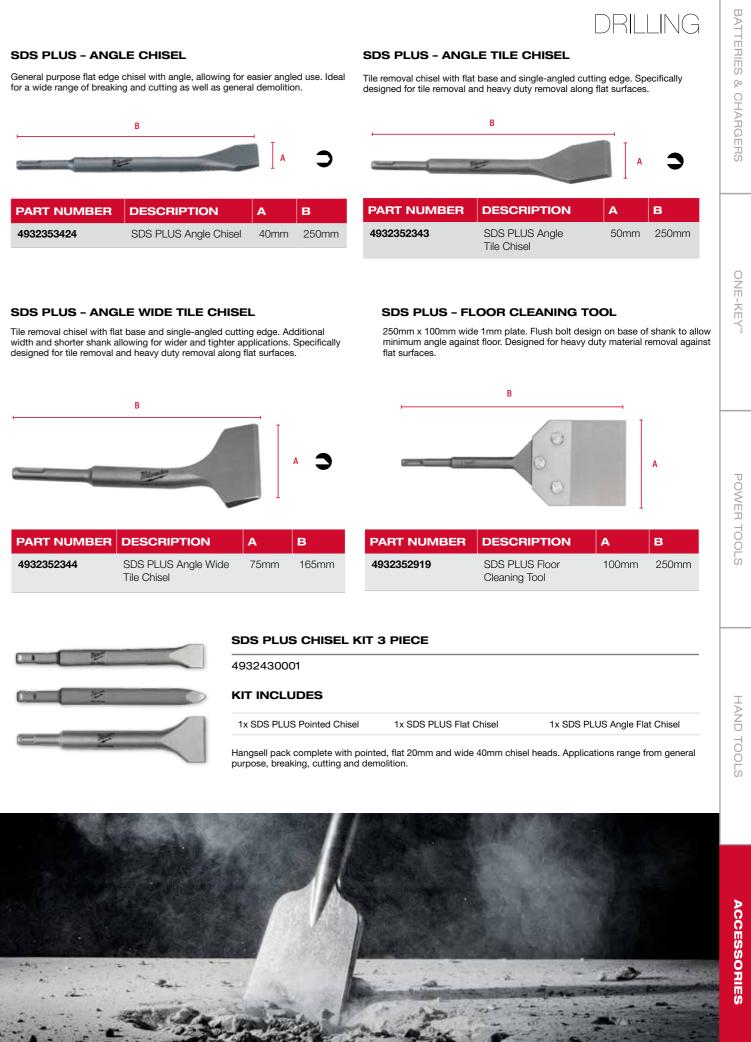

General purpose flat edge chisel with added width for greater material removal. Ideal for a large range of breaking and cutting, as well as general demolition.

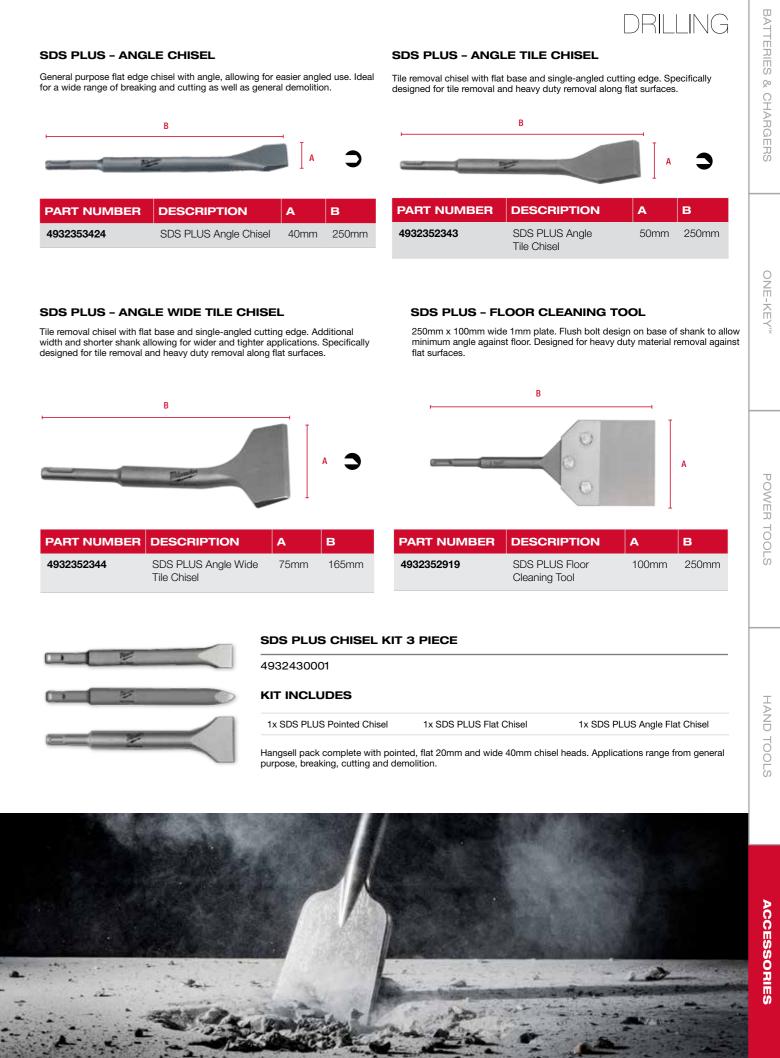

PART NUMBER	DESCRIPTION	A	В
4932352344	SDS PLUS Angle Wide Tile Chisel	75mm	165mm

E O

U U

Milwaukee Nothing but HEAVY DUTY

# SDS () MAX

# LARGE CARBIDE TIP

Ensures lower vibration and optimised drilling performance when hitting reinforced steel, increasing lifetime.

# SPECIALLY DEVELOPED **ROBUST HEAD GEOMETRY** WITH OPTIMUM 4X90° SYMMETRY OF CARBIDE TIP.

Reduces jamming upon hitting rebar.

# **CENTRING POINT WITH** 130° POINT ANGLE.

Easy spot drilling with pinpoint accuracy and ensures optimum guidance during drilling.

# **BIG, ROBUST SECONDARY CUTTER WITH DYNAMIC, CURVED CUTTING EDGE.**

Supports the primary cutter for fast drilling.

# SHORTER SPIRAL WINDINGS.

For fast transport of drilling dust from the head to the flute = Less wear and heat build-up at the tip.

**PGM CONFORMITY** 

LOW VIBRATION

SURFACE TREATMENT

# **INNOVATIVE, UNIQUE CARBIDE** TIP.

With more carbide on all diameters and extra carbide on  $\emptyset$  > 32mm.

OLD

# WEAR MARK ON BOTH SIDES **OF PRIMARY CUTTER.**

Guarantees diameter accuracy i.e. for anchor fittings. Lifetime indicator in warranty cases.

# **REINFORCED FLUTE GEOMETRY.**

Lower vibrations for smoother drilling. Stronger flute means less breakages. Better transfer of hammer energy to the tip.

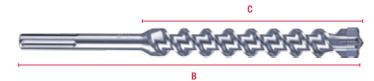

# **DEEP FLUTE SHOULDERS.**

High-volume dust removal for optimum drilling speed, less wear and heat build-up.

### SDS MAX - ANGLE TILE CHISEL

Tile removal chisel with flat base and single-angled cutting edge. Additional width for wider applications and less passes on large jobs. Specifically designed for tile removal and heavy duty removal along flat surfaces.

PART NUMBER	DESCRIPTION	Α	в
4932399234	SDS MAX Angle Tile Chisel	80mm	300mm

### SDS MAX - WING CHISEL

Application-specific for narrow channelling at fixed depth in concrete.

# POWER TOOLS

## SDS MAX CHISELS

## **SDS MAX - POINTED CHISEL**

General purpose chisel with point available in 3 different lengths to suit a wide variety of applications.

PART NUMBER	DESCRIPTION	А	в
4932343734	SDS MAX Pointed Chisel	-	280mm
4932343735	SDS MAX Pointed Chisel	-	400mm
4932343736	SDS MAX Pointed	-	600mm

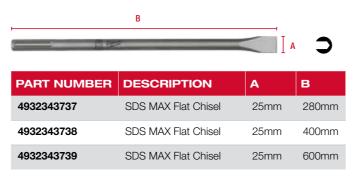

# SDS MAX - POINT CHISEL

Extreme heavy duty pointed chisel with reinforced 20mm shaft. Suitable for a wide variety of applications.

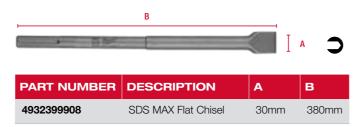

### SDS MAX - FLAT CHISEL

General purpose flat edge chisel, ideal for a wide range of breaking and cutting applications, as well as general demolition.

## SDS MAX - FLAT CHISEL

Extreme heavy duty flat chisel with reinforced 20mm shaft. Suitable for a wide variety of applications.

# SDS MAX - CLAY SPADE

Designed with a sharp point to tackle the hardest clay application, along with general purpose digging applications.

BATTERIES

ONE-KEY

- . Easy centring: the special shaped tip design ensures accurate positioning and avoids skating on hard and smooth materials.
- Optimal dust removal: the large entrance channels remove the dust quickly from the hole for less wear on the tip, resulting in higher performance and long life.
- Precise round holes: due to 2 extra carbide tips, the drill bit will produce precise round holes and also has excellent performance when hitting rebar.
- . High energy transfer: KVS-flute design gives the best energy transfer from the tool reception to the drill bit tip and also lowest vibration.
- Made in Germany.

## FEATURES

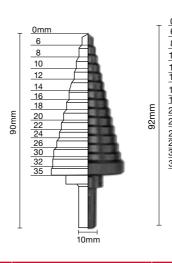

- 1 drill bit to drill multiple sizes: do more and carry less.
- Ideal for: ferrous and non-ferrous sheet metals, profiles and pipes, copper, brass and aluminium, stainless steel, plastics.
- Rapid strike tip for improved centring means less walking and fast drilling without the need to punch or pre-drill the material.
- Special tip and step geometry for jam-free performance lessens the risk of drill snagging when used with high-speed cordless tools and also prevents deformation of the drilled material.
- Optimised 2 flute ground, sharpened edge geometry for fast cutting.
- Produced from custom-engineered steel with black oxide coating for long life and durability.
- Laser-engraved size markings for long-term visibility.
- Suitable trade: electrical (drilling of panels/cabinets), plumbing/HVAC (access holes for pipework and installation), metal workers/fabrication (various sizes and hole enlargement), automotive (holes for cable installation).
