51201N

Alemlube Tyre Inflator With Gauge

The Alemlube 51201N tyre inflator with gauge is heavy duty with an aluminium die cast body, impact absorbing bumpers and spiral protected air hose. Ideal for automotive, industrial and trade use, the 51201N incorporates slim ergonomic design features and is easy to use when inflating or deflating.

Highly accurate, the 51201N with magnified sight glass clearly indicates dual scale pressure reading of 0-150psi and 0-1050Kpa. Quality manufacturing and robust construction ensures dependable and trouble free day-in, day-out use.
