

(220-240 V / 50 - 60 Hz); Cardboard box

- Long grinding spindle ideal for working at hard to reach places
- Paddle switch with dead man function: Safe to operate due to an ergonomically integrated non-slip switch

neia

- Spindle lock for simple change of tools
- · Aluminium die-cast bearing flange for long service life of the machine
- Vario-Constamatic (VC) Electronics for working with customised speeds for the materials used that remain almost constant under load
- Thumbwheel for preselection of speed
- Electronic safety shutdown of the motor if the tool jams for safe working
- Restart protection: prevents unintentional startup after power cut
- Electronic overload protection for long service life
- Precise collar for stationary use
- · Removable protective rubber cap for comfortable and safe working
- Slim housing for ideal handling
- Precision collet for precise concentricity
- · Metabo Marathon motor with patented dust protection for long service life
