

HAND PROTECTION

Kevlar Sticked Welding Gloves

Product Code:

700008

Description:

The Yellow Kevlar is designed for extra durability with reinforcement on the palm, thumb and knuckle area. The extra reinforcing knucklebar strip across the back of the hand protects the knuckles and offers additional abrasion protection, all seams are sewn with heat resistant Kevlar thread for extra durability.

Features:

- Heavy duty welding gauntlet
- Additional reinforcing on the thumb, knuckle and palm
- Heavy duty kevlar stitching
- Internal lining

Applications:

- Welding workshops
- Site welding
- Where additional protection from welding is required
