

EC36DA(H4Z) 36V Brushless Air Compressor

Barcode 4966376414796

Quick Air Filling & High air delivery

Sufficient working capacity per charge.

Compatible with the ET36A as an AC Compressor

Air filter prevents from intaking dust & low maintenance. Pressing down the air sound will reduce noises.

Specifications

Voltage	36V
Motor type	Brushless
Tank Capacity	7.3L
Pressure Control	Cut-in pressure: 105 PSI Cut-out pressure: 135 PSI
Free air Delivery	40 PSI: 2.3 CFM (65.1L/min) 90PSI: 1.6 CFM (45.3L/min)
Filling Air Time	0 PSI to Cut-out pressure: Approx. 65 seconds Cut-in to Cut-out pressure: Approx. 17 seconds
Weight	13.4kg
Dimensions (L x W x H)	408 x 330 x 343mm
Battery	HiKOKI MultiVolt battery

Features

Quick Air Filling and High Air Delivery:

This air compressor is designed to provide fast air filling for efficient workload. It also delivers a high volume of air, ensuring efficient and effective operation.

Sufficient Working Capacity per charge:

The EC36DA is powered by HiKOKI Multi Volt battery, providing ample working capacity on a single charge.

Compatible with the ET36A as an AC Compressor:

With the compatibility of the ET36A adapter, the EC36DA can be utilized as an AC compressor. This means that users can switch to an alternate power source without interrupting their work, ensuring uninterrupted productivity.

Air Filter Prevents Intake of Dust and Low Maintenance:

The air compressor is equipped with an air filter that prevents dust and debris from entering the system. This not only ensures cleaner air output but also reduces maintenance requirements, as it helps to keep the internal components clean and free from contaminants.

Noise Reduction:

The EC36DA is designed to minimize air sound when the compressor is in operation. By pressing down on the air sound, the noise levels are reduced, providing a quieter working environment.

Accessories

Intake filter

Applications

Trimming, Finishing and remodeling.
