

Tesuco has introduced a range of one piece cutting torches. They are extremely solid and robust and have been designed to use the standard Type 41 or Type 44 cutting nozzles, with a cutting capacity of 300mm. They have a three barrel design, come in two standard lengths, have 90° and 180° head configurations and are available for either oxygen / acetylene or oxygen / LPG service. Spare tubes and supports are also stocked, so custom lengths can be made to order.

Specifications	
Materials of Construction	
Handle	Brass
Lever	Stainless Steel
Gas Tubes	Stainless Steel
Tube Supports	Brass
Cutting Head	Brass
Dimensions (mm)	
GWCT600, GWCTA600	(L) 600 (H) 90 (W) 60
GWCT1000, GWCTA1000	(L) 1000 (H) 90 (W) 60
GWCT1000S, GWCTA1000S	(L) 1000 (H) 90 (W) 60
Weights (kg)	
GWCT600, GWCTA600	1.43
GWCT1000, GWCTA1000	1.73
GWCT1000S, GWCTA1000S	1.86

Part No	Description
GWCT600	600 mm 90° Head LPG
GWCTA600	600 mm 90° Head Acetylene
GWCT1000	1000 mm 90° Head LPG
GWCTA1000	1000 mm 90° Head Acetylene
GWCT1000S	1000 mm 180° Head LPG
GWCTA1000S	1000 mm 180° Head Acetylene
