LPG Original Kit

Classic kit-B/H/C

The Regulators are ideally suited for the mobile light trade. The HARRIS mixing system uses gas at much lower pressures i.e. 1.5Kpa on LPG which provides gas savings and increased safety.

Operator's will enjoy that the handle, fitting right or left hand. Cutting attachment has a built in "ease-on" valve for less sparks when starting and hot tips ensure quick starting.

Includes Reg-End Flashback Arrestors and Flashguards on Handle.

Includes 10 metres of 6mm Harris Oxy/LPG Hose.

**Complies to
ISO 5172
AS 4267
AS 4839
Standards**
