Flex Feed[™] 74 HT

Processes

MIG, Flux-Cored, Submerged Arc (hand-held) and Gouging

Product Number K3883-XX 17 Product Variations * See back for details

Semiautomatic Wire Feeder

The Flex Feed[™] 74 HT (High Torque) is a heavy duty industrial semiautomatic wire feeder for general and structural fabrication. The Flex Feed wire feeder is designed to be customized for each application.

FEATURES

Simple

 Basic and digital user interface streamlines operator setup

Rugged

- Improved isolation and environmental protection
- Robust connection points allow for reliable operation in tough conditions

Modular

 Modularity allows for customizable configurations

- $^{(1)}\,$ 600A / 30% (with gouging stud connected)
- (2) 20 tooth pinion gear installed in the wire drive as equipped from the factory
- ⁽³⁾ To achieve wire feed speed of 700, the feeder is configured with a 30 pinion gear
- ⁽⁴⁾ Variation in the wire size range is dependent on the configuration of the 20 or 30 tooth pinion

Input Power 24-42 VAC 50/60 Hz Output Capacity Current/Duty Cycle 600A/60% (wire drive only)⁽¹⁾ 600A/30% (gouging stud)

Wire Size Range .025-.120 in. (0.6-3.0 mm)⁽²⁾⁽⁴⁾ Wire Feed Speed

50-700 IPM (1.3-12.7 m/min)⁽²⁾⁽³⁾ Weight/Dimensions (H x W x D) 13.3 x 15.5 x 23.6 (338 x 394 x 599) wire drive only

APPLICATIONS

- Fabrication
- Structural
- Heavy Equipment
- Construction

RECOMMENDED POWER SOURCES

- Flextec[™] 450
- Flextec 650
- Invertec[®] V350 PRO
- CV-305
- CV-400
- DC-400, 600 and 1000
- Ranger[®] 250 GXT
- Ranger 305 G, LPD, D
- Vantage[®] 300, 400 and 500
- Air Vantage[®] 500

WHAT'S INCLUDED

- Bench models of the Flex Feed 74 HT include a 10 foot control cable
- All models include a standard #4 gun adapter
- Models with the Heavy Duty Wire Reel stand include a lift bail
- Models without a wire reel stand include K3929-1 quick disconnect inlet bushing

KEY CONTROLS

- 1. Digital display meter for AMPS
- 2. Wire Feed Speed Knob to increase or decrease feed speed
- 3. Optional gouge stud shown
- 4. Preflow Knob
- 5. Burnback Knob
- 6. Postflow Knob
- 7. Digital display meter for voltage
- 8. Voltage control to adjust the output of the power source
- 9. Trigger Connector
- 10. 2/4-Step/Trigger Interlock Switch to enhance operator comfort for long welds

RECOMMENDED ACCESSORIES

GENERAL OPTIONS Inlet Bushing, quick connect style Included with Flex Feed 74 HT feeders without a wire reel stand. Order K3929-1

Wire Straightener Straightens wire for the better, smoother feeding. Order K1733-1

Wire Reel Stands - Heavy Duty For Spools up to 44 lbs. (20 kg) and

Wire Reel Stands - Standard Duty

Use for spools up to 44 lbs.

(20 kg) max.

Order K3342-1

coils up to 60 lbs. (27 kg). Includes K3341-1 lift bail. Order K3343-1 Lift Bail Insulated lift bail for suspending

the wire feeder. Requires either standard duty or heavy duty wire

Spool Cover Order K1634-4 for use with 30-40 lb. spools. K3340-1 for use with 50-60 lb coils.

Shielding Gas Filter Protects the gas solenoid and gun from contaminants. Order KP3103-1

Inverter Cart Mounting Kit Use for mounting feeder to an inverter cart Order K4068-1

⁽¹⁾ 600A / 30% (with gouging stud connected)

(2) 20 tooth pinion gear installed in the wire drive as equipped from the factory

⁽³⁾ To achieve wire feed speed of 700, the feeder is configured with a 30 pinion gear

⁽⁴⁾ Variation in the wire size range is dependent on the configuration of the 20 or 30 tooth pinion

S - In-stock; normally in-stock for immediate shipment

P - One-Pak® of stocked items; normally in-stock for immediate shipment

A - Assemble upon order; typically ships in 5 business days

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not vareant or guarante or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change - This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.com for any updated information.
