

The new bendable lance is an important addition to the OTS200 portable brazing kit. The lance tube is made from a special type of annealed copper that allows it to be easily and repeatedly bent into any position. This allows the operator to get the flame into areas which are difficult to reach with a normal ridged lance. This ability makes it particularly suited to plumbers and anyone doing repair work on air conditioning or refrigeration equipment.

Part Number	Description
OTS200BL	Bendable Lance for Turbo Set 200

Specifications	
Packaging Type	Shell Pack
Dimensions	
Product Only	(L) 235 mm (Ø) 66 mm
With Packaging	(H) 325 mm (W) 55 mm (D) 15 mm
Materials of Construction	
Tubing	Annealed Copper
End Connections	Brass
Warranty	1 Year (Manufacturer's Defect)
Country of Origin	China
