Technical Data Sheet	DCM Quick Zinc Aerosol

DESCRIPTION AND USE

DCM QUICK ZINC GALVANISING SPRAY is used as a protective primer or final coating wherever Iron or Steel will be exposed to corrosive conditions. The Zinc acts as the sacrificial anode and the zinc powder used in this product is 93% purity.

Quick Zinc eliminates galvanic corrosion. The film dries to a flexible, non cracking, non chipping coating.

Eliminates corrosion on welds and previously galvanised surfaces where the galvanising has been disturbed.

APPLICATIONS

Weld Through Primer.

Restoration of galvanised steel roofing.

Agricultural machinery, Air conditioning units, steel gates & fences.

Marine Equipment, Boat Hulls, Metal Floors & Roofs.

Mining Equipment, Oil Rigs and Offshore Drilling Structures.

Railroad Equipment, Structural Steel Tanks, Transmission Towers.

Underground Pipe Lines, Structural Steel Tanks, Car Bodies.

SURFACE PREPARATION

The surface to be painted must be clean, dry and free from all rust, oil, grease, weld flux and flaking paint.

TECHNICAL DATA

Appearance Flat Grey Colour
