

**7.5KW
10HP**

ROTARY SCREW COMPRESSOR

- Complete ready to go package with screw, tank and dryer included.
- Fully sealed cabinet with soundproofing and noise-reducing partitions to minimise noise.
- Extra large surface cooler allows unit to operate at ambient temperatures up to 46°C.
- Premium filtration with ultra low oil carry over meaning less contamination resulting in cleaner air.
- Latest generation designed air end and high precision manufacturing ensures high performance air delivery.
- Intelligent control system with self-service timing management.
- All the main components are easily accessible, ensuring fast and simple maintenance.

Part No.	TM356-10270
Pump Type	Screw
Motor	7.5kW (10hp) 415V
Tank Capacity	270L
Max Pressure	147psi (10 bar)
Free Air Delivery	1080L/min (38 cfm)
Noise	66 dBA
Weight	358kg
Compressor Dimensions	1540 x 750 x 1440mm
