

STORAGE TANK KITS

The Macnaught Storage Tank Kits are assembled using the highest quality Australian made poly tank and the Macnaught 12V Electric Pump for diesel and urea/DEF applications making it the only complete package backed by a 5 year warranty in the market.

The tanks are made from specially formulated polyethylene, designed to withstand their application requirements in the harshest conditions. They offer lightweight, yet sturdy fuel storage solutions. They are designed with many safety features including auto shut-off nozzles to prevent fuel wastage and the included earth strap prevents the build-up of static when the tank is in use. Together these features give the operator peace of mind when refuelling.

POLY DIESEL TANK KITS

400L DIESEL TANK KITS
MDT400L

200L DIESEL TANK KITS
MDT200L

TECHNICAL SPECIFICATIONS

- Flow rate up to 40LPM
- Macnaught diesel 12V pump kit (AFP12A)
- 400L or 200L tank available
- Built in suction hose
- Automatic nozzle
- 3 point security (lockable lid, nozzle and fill cap)
- Bucket strainer
- 3/4" x 4m delivery hose
- Earthing cable
- Moulded carry handles
- Dimensions: 200L diesel tank kit - 830D x 700W x 750H, 34kg
- Dimensions: 400L diesel tank kit - 1200D x 840W x 790H, 43kg

POLY UREA/DEF TANK KITS

200L UREA/DEF TANK KITS
MADB200L

TECHNICAL SPECIFICATIONS

- Flow rate up to 40LPM
- Macnaught Urea/DEF 12V pump kit
- Built in suction hose
- Manual nozzle
- 3 point security (lockable lid, nozzle and fill cap)
- Bucket strainer
- 3/4" x 4m delivery hose
- Earthing cable
- Moulded carry handles
- Dimensions: 200L diesel tank kit - 830D x 700W x 750H, 34kg
